

## **YOU NEED MORE MONEY – ONE SHEET**

*“In 2014, my family was hit with devastating news that my beloved wife Rokki’s only brother, at age 46, with a wife and four children, was diagnosed with stage 4 cancer. The news itself was enough to bring us to our knees, but as we soon would find out, cancer was not his only battle. He was faced with a financial battle that too many Americans face, he had no life insurance, no health insurance and less than \$100 bucks in the bank.”*

***“You will never convince me that money doesn’t matter...EVER.” Matt Manero***

During this keynote speech, Matt will take the audience through the deeply personal experience of how his family tragedy turned into a massive wakeup call and the genesis of his book YOU NEED MORE MONEY. Matt’s presentation shows everyone that:

1. The money has moved and why we are still chasing old financial goals.
2. How to stay out of #falsepositive and why it is disastrous to financial success.
3. How to determine if and how much you are behind financially
4. Step by step methods Matt used to go from broke to multi-millionaire.

Matt will explain what they are, how they can be implemented into anyone’s life and how everyone deserves to have a “lifestyle by design” built by them, not by someone else.
